

**EMC TREC Small Business Edition – (Limit of 5 users)**

**Tired of printing TREMCARDS with a DONGLE? Then this is the perfect solution for you!**

**Offline system:** An offline system which is installed from a CD or downloaded from the website. This includes a database of all the UN Numbers and enables you to generate and print your own TREC's.

<b>Annual licence fee (Standard package)</b>	<b>Price:</b>
<i>CD with software which enables the printing of TREC's. (one user)</i>	<i>R 5 000</i>
<i>Additional users and modules available</i>	

**NEW ADDITION!!!**

We have just launched the "**Cargo Check Module**".

This module allows companies to check the compatibility and exempt quantity of each load to comply with legislation.

This module can be purchased with the EMC TREC Small Business Edition as well as the Enterprise Edition.

Small Business Edition pricing:

<b>Annual licence fee (CD Installation)</b>	<b>Price:</b>
<i>Cargo Check form for small business Edition.</i>	<i>R 1 000</i>
<i>Sold as part of EMC TREC</i>	

***EMC TREC Enterprise Edition – (unlimited users)***

***Tired of printing TREMCARDS with a DONGLE? Then this is the perfect solution for you!***

This option includes 1 Company; unlimited concurrent users can be added. Print only users are also available.

Installation will be done on a Network or central server.

One company means there will be one global company. Unlimited branches may be captured in the TREC module each with its individual cards. Branches will be able to see each other's data.

Please ask for a quotation for this option.
